

SAKSHI BANSODE

Data Engineer | Python, SQL, PySpark, Azure Databricks, AWS Glue, Delta Lake

Pune, Maharashtra, India | bansodesakshi1580@gmail.com | +91 94220 27868 | [linkedin.com/in/sakshi-bansode](https://www.linkedin.com/in/sakshi-bansode)

PROFESSIONAL SUMMARY

Data Engineer with hands-on production experience building **scalable ETL and Medallion-architecture pipelines** on **Azure Databricks, Delta Lake, and AWS Glue** for a Fortune-500 media enterprise. Databricks- and Azure-certified, with proven ability to translate business requirements into reliable, production-grade data pipelines that improve **data quality, pipeline reliability, and analytics readiness** at scale. Skilled in **Python, SQL, PySpark, Spark SQL, data modeling (star schema), and data validation**, with strong cross-functional collaboration and technical documentation practices.

CORE TECHNICAL SKILLS

- **Languages & Query:** Python, SQL, PySpark, Apache Spark, Spark SQL
- **Cloud & Big Data:** Microsoft Azure, Azure Databricks, Azure Data Factory (ADF), Azure Data Lake Storage (ADLS), AWS Glue, AWS S3, AWS EC2, Delta Lake
- **Data Engineering:** ETL/ELT Pipeline Development, Data Transformation, Data Validation, Data Quality, Data Cleansing, Performance Optimization, Batch Processing
- **Data Modeling:** Star Schema, Fact & Dimension Tables, Schema Enforcement, Medallion Architecture (Bronze/Silver/Gold), DataFrames
- **Databases & Tools:** MySQL, Oracle SQL, SQL Server, Databricks Notebooks, Jupyter Notebook, VS Code, Git, GitHub
- **Practices:** Enterprise Data Platforms, Analytics, Technical Documentation, Cross-Functional Collaboration, Agile

PROFESSIONAL EXPERIENCE

Data Engineer — Capgemini Technology Services India Ltd, Mumbai

Dec 2024 – Present

- Delivered reliable, production-grade data engineering support for Warner Bros. Discovery by administering and monitoring **enterprise-scale Azure Databricks pipelines** within a high-availability production environment.
- Strengthened cloud storage efficiency and transaction integrity by re-architecting data transformation logic on **Azure Databricks and Delta Lake**, delivering ACID-compliant, schema-enforced storage for large-scale enterprise datasets.
- Elevated data quality and cross-team delivery speed by designing rigorous ETL validation checks and authoring **standardized technical documentation** adopted across engineering and analytics teams.

PROJECTS

WB T&M Business Enablement – Azure Medallion Pipeline

Tech Stack: Azure Databricks, Spark SQL, PySpark, Azure Data Factory (ADF), Azure Data Lake Storage (ADLS), SQL Server

- **Owned Bronze-to-Silver layer transformations**, standardizing and structurally validating raw ingested data using PySpark to make it analytics-ready for downstream teams.
- **Improved data integrity** by designing duplicate-detection and data-cleaning logic that systematically identified and eliminated redundant records at scale.
- **Applied complex business logic at the query level** by authoring optimized Spark SQL to handle NULL values, perform data type conversions, and filter datasets via conditional branching.
- **Streamlined cross-team handoffs** by producing comprehensive architecture documentation, pipeline mapping files, and transformation runbooks.

AWS Glue ETL Pipeline — EveryPolitician Dataset

Tech Stack: Python, PySpark, AWS Glue, Amazon S3, ETL, SQL

- **Engineered an automated, end-to-end ETL pipeline** on AWS Glue and Amazon S3 to ingest, process, and transform raw public political/demographic datasets into structured, analysis-ready formats.
- **Developed distributed PySpark scripts** within AWS Glue notebooks to execute complex transformations, schema enforcement, and data cleansing at scale.
- **Improved pipeline reliability and consistency** by orchestrating workflow automation with comprehensive execution logging to minimize processing downtime.
- **Delivered structured, query-optimized datasets** enabling seamless downstream analytics and reporting on complex demographic and political records.

EDUCATION & CERTIFICATIONS

- **Bachelor of Technology** — Dr. Babasaheb Ambedkar Technological University, Lonere | CGPA: 7.66 | 2024
- **Databricks Certified Data Engineer Associate** — Databricks (2026)
- **Microsoft Certified: Azure Administrator Associate** — Microsoft (2026)

Languages: English, Hindi, Marathi
